L'ESSENZA DI SCRIGNO

In Scrigno crediamo che lo spazio non sia solo una dimensione da riempire, ma una risorsa viva da modellare e reinventare.

La nostra storia è iniziata con un'intuizione e, fin da allora, non ci siamo limitati a produrre soluzioni, ma abbiamo aperto a possibilità creative sempre nuove per l'architettura e per le persone. Dal 1989, trasformiamo ogni sfida in nuove, inesplorate spazialità. Perché dietro ogni nostra proposta c'è un sapere che unisce l'ingegno tecnico dell'artigiano con la cultura del progetto. Una visione che si nutre di ascolto, ricerca e attenzione al dettaglio. Per questo il nostro obiettivo non è mai solo un prodotto, ma un'esperienza emozionale dello spazio che evolve assieme a chi lo abita.

Per noi creare non è semplicemente costruire. È ispirare la creatività di ciascuno per dare forma a nuovi spazi abitativi.

At Scrigno, we believe space is more than a dimension to be filled – it's a living resource, ready to be shaped and reimagined.

Our story began with an intuition. Since then, we haven't just developed solutions – we've pursued creative possibilities that open up new ways of experiencing architecture and life itself. Since 1989, every challenge has been a chance to explore new and unexpected dimensions of space. Each of our designs is rooted in a deep understanding that brings together technical mastery and design culture. It's a vision shaped by listening, research, and an unwavering attention to detail. That's why we don't just deliver a product – we create spatial experiences that evolve with the people who live in them.

For us, creating doesn't mean simply building. It means inspiring the creativity of each person to help shape the spaces of tomorrow.

THE SOUL OF SCRIGNO

Un sistema progettuale aperto, pensato per offrire la massima libertà compositiva.

Talos nasce da una profonda ricerca sui design contemporanei e da un'esplorazione su cromie inedite. Il risultato è un universo di combinazioni possibili, studiate per realizzare qualsiasi visione progettuale.

Questa collezione prende il nome dal mitologico guardiano di bronzo che difendeva l'accesso a Creta. La sua ispirazione si traduce in un linguaggio stilistico di grande carattere, dove ogni porta diventa una soluzione unica. Dalla purezza assoluta delle ante lisce al segno materico delle incisioni, dalla tridimensionalità della pantografia agli inserti di luce: ogni variante è uno strumento per valorizzare il progetto, per dare voce all'architettura.

Versatile, intelligente, affidabile. Talos è la nuova espressione della filosofia Scrigno: un mondo di possibilità pensate per dare forma a ogni idea dell'abitare.

A flexible design system made to inspire creativity.

Talos is the result of extensive research into contemporary styles and a bold exploration of new colour tones. It offers a rich set of combinations, each carefully crafted to support and elevate a wide range of design visions.

Named after the mythical bronze guardian who protected the island of Crete, the collection draws on this powerful image to express a strong and distinctive design language. Each door becomes a unique feature: from the clean simplicity of flush panels to textured engravings, from the depth of pantograph patterns to subtle light inserts – every option is designed to enhance your space and reflect your architectural intent.

Versatile, smart and reliable.

Talos is the latest expression of Scrigno's design philosophy – a world of possibilities created to bring any living concept to life.

MIRR

MIRR1

MIRR2

La purezza inafferrabile della luce incontra la leggiadria del vetro, tra leggerezza e solidità. Con Mirr, la tecnologia si fa invisibile: è la lastra di cristallo, singola o doppia, ad incorniciare la struttura in alluminio. Un design assoluto e prezioso che cattura e riflette lo spazio, trasformando la porta in una soglia di eleganza sofisticata.

The elusive purity of light meets the grace of glass – weightless, yet solid. With Mirr, technology becomes invisible: it's glass pane – whether single or double – that frames the aluminium structure.
An absolute, precious design that captures and reflects the space, transforming the door into a threshold of sophisticated elegance.

ARIA

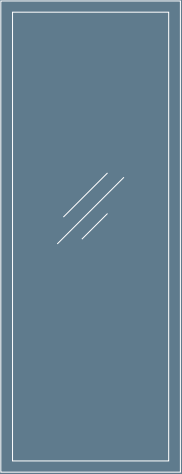

Il minimalismo allo stato più puro. Il vetro si libera da ogni cornice per diventare architettura pura, lasciando trionfare la materia e la luce. Sospesa, essenziale, Aria è pensata per celebrare grandi habitat, aperture monumentali e spazi aperti. Una presenza scenografica, che lascia parlare lo spazio con il linguaggio emozionante della leggerezza.

Minimalism in its purest form. Glass is freed from every frame to become pure architecture, celebrating matter and light. Suspended, essential, monumental, Aria is designed to complement expansive habitats, grand openings and open-plan spaces. A striking presence that lets the space speak through the evocative language of weightlessness.

Un segno sottile che segue armonicamente il contorno del varco. Acqua è l'equilibrio perfetto tra la matericità di un profilo in alluminio e la fluidità del vetro. Un design versatile e sartoriale, che definisce lo spazio con un'eleganza leggera e una personalità trasparente, valorizzando ogni progetto col suo stile inconfondibile e un'attenta definizione di ogni dettaglio.

A subtle line that harmoniously follows the contour of the doorway. Acqua strikes the perfect balance between the texture of an aluminium profile and the fluidity of glass. A versatile, bespoke design that defines the space with understated elegance and transparent character, enhancing every project with its distinctive style and carefully considered details.

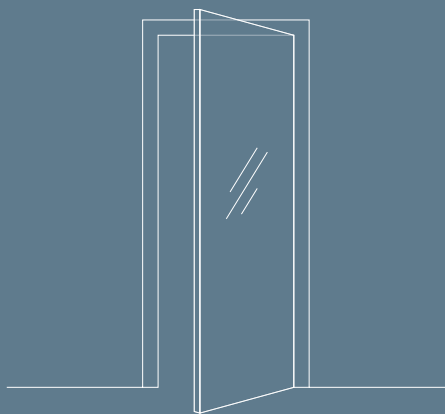

APERTURE PORTE VETRO

GLASS DOORS OPENINGS

La leggerezza del vetro, l'arte dell'apertura. Un materiale puro incontra soluzioni progettuali capaci di esaltarne la trasparenza e la luce. Dall'essenzialità dello scorrevole interno alla dichiarazione di stile dell'esterno muro, fino alla sobrietà elegante del sistema a battente: ogni apertura in vetro è pensata per dialogare con lo spazio. Tecnica e visione convivono in un sistema che non pone limiti alla creatività, ma la accompagna con coerenza e precisione. Perché ogni gesto d'apertura diventi una scelta di design.

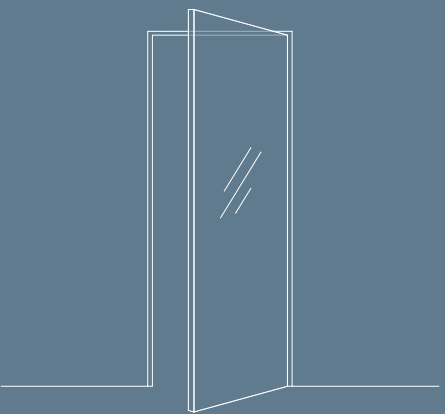

The lightness of glass, the art of a doorway. A pure material brought to life through design solutions that enhance its transparency and light. From the simplicity of pocket door systems to the bold statement of external sliding solutions and the refined subtlety of swing doors – every glass doorway is designed to engage in dialogue with its surroundings. Technology and vision come together in a system that sets no limits to creativity but rather guides it, with coherence and precision. So that every act of opening becomes a conscious design choice.

LEGNO LISCIO
PLAIN WOOD

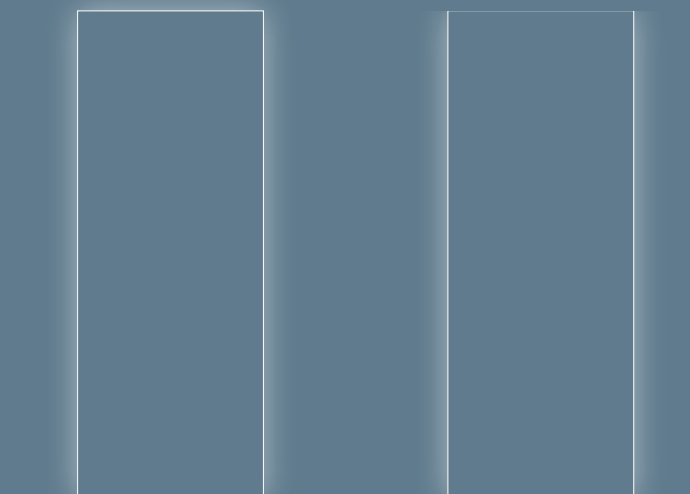

CONTROLUCE

Non una semplice porta, ma una cornice di luce nello spazio. Controluce, firmata Egidio Panzera, è la porta filo muro che usa l'illuminazione come materia, scolpendo il varco con un suggestivo gioco di luce e ombra. Un gesto luminoso personalizzabile, che trasforma il passaggio in un'esperienza scenografica dello spazio, in un inedito dialogo tra luce e architettura.

Not merely a door, but a frame of light within the space. Controluce, designed by Egidio Panzera, is a flush-to-wall door that uses lighting as matter, sculpting the opening with a suggestive play of light and shadow. A luminous gesture, entirely customisable, transforming the passageway into a theatrical spatial experience – an unexpected dialogue between light and architecture.

LED04

LEGNO LISCIO
PLAIN WOOD

SISMONDO

Sismondo è la porta blindata scorrevole che crea partizioni sicure – come per aree riservate come home office, accessi esclusivi, cabine armadio o panic room – dando vita a un gesto fluido ed elegante, che unisce protezione e discrezione. La più alta tecnologia protettiva si integra nell'architettura, con la massima discrezione. È così che unisce armonicamente design, funzionalità e una solida classe 3 antieffrazione.

Sismondo is the sliding security door that creates secure partitions, ideal for private areas such as home offices, exclusive access points, dressing rooms or panic rooms, giving life to a fluid and refined motion that combines security with discretion. High-performance protective technology is integrated into the architecture with utmost discretion, effortlessly combining design, functionality and solid anti-burglary class 3 resistance.

PLAIN WOOD

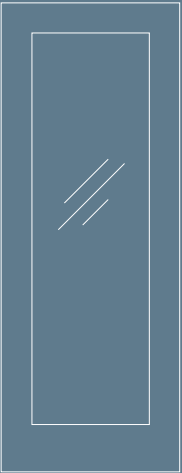

FLUA

La quiete assoluta di una superficie liscia perfettamente integrata in ogni spazio: Flua ha l'anima della porta essenziale, un design netto che parla con il linguaggio della purezza assoluta. La sua estrema versatilità, espressa in finiture Laccate, Decor ed Essenza, ne fa la tela perfetta su cui comporre, il fondamento ideale per dare vita a interni minimali e contemporanei.

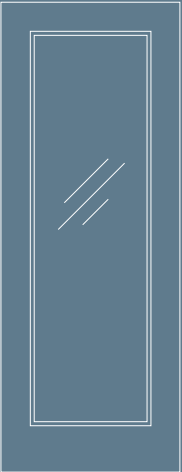

The absolute stillness of a smooth surface, perfectly integrated into any space: Flua captures the essence of a minimalist door, its clean lines speaking a language of absolute purity. Its exceptional versatility, expressed through Lacquered, Decor and Wood finishes, makes it the perfect blank canvas on which to build, and the ideal basis for minimal and contemporary interiors.

LEGNO INSERTI
WOOD INSERTS

NUMEN

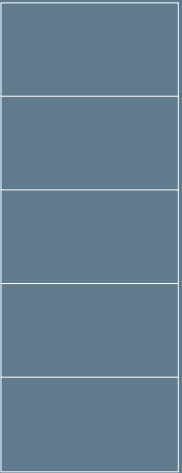

Quando un segno diventa presenza, lo spazio prende vita: Numen è un inserto materico che abita la porta stessa, un lampo di metallo che le conferisce un'anima. Con cinque modelli di basi personalizzabili Laccate, Decor o Essenza, la sua estetica distintiva trasforma il varco in una soglia dal carattere unico e prezioso.

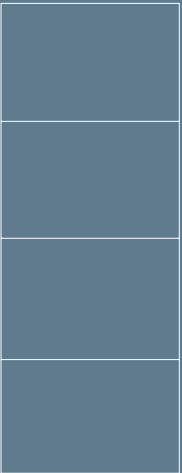

When a line assumes a presence, space comes alive: Numen is a material insert that lives within the door itself – a gleam of metal that gives it soul. Available with five customisable base models in Lacquered, Decor and Wood finishes, its distinctive look transforms the doorway into a threshold of unique, refined character.

VESTIGIA

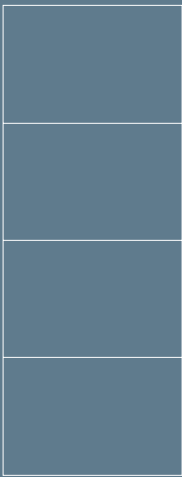

Segni d'autore che rendono unica ogni superficie: attraverso dodici incisioni d'autore, Vestigia trasforma la porta in un racconto estetico e materico, fatto per catturare i sensi. La purezza della finitura laccata esalta ogni dettaglio, per uno spazio che esprime pura bellezza con un carattere unico e contemporaneo.

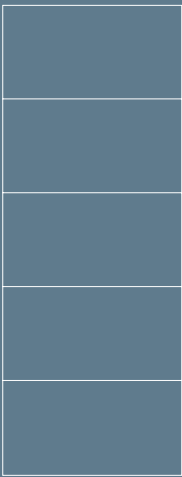

Signature engravings that make every surface unique: through twelve bespoke incisions, Vestigia transforms the door into a visual and tactile narrative designed to engage the senses. The purity of its lacquered finish enhances every detail, shaping a space that conveys pure beauty with a distinct, contemporary character.

PHANTA

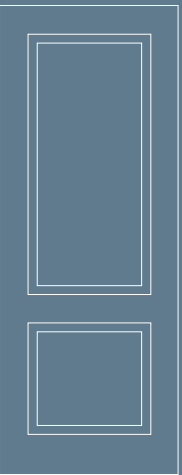

In equilibrio perfetto tra memoria e modernità, una nuova visione dall'eleganza classica. Con Phanta, la pantografia si fa gesto contemporaneo, scolpendo la superficie con raffinati disegni in rilievo che uniscono tradizione artigianale e stile puro, esaltando la preziosità della finitura laccata.

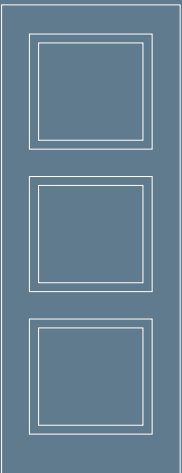

A perfect balance between memory and modernity – a fresh vision steeped in classical elegance. With Phanta, pantograph engraving becomes a contemporary gesture, carving refined raised motifs into the surface where tradition meets pure style, highlighting the richness of the lacquered finishes.

GLYPHA

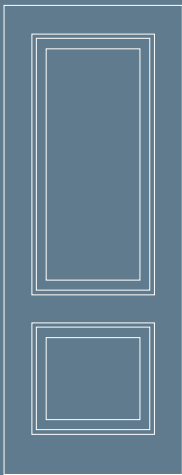

Un glifo tridimensionale che evolve, valorizza, definisce lo spazio. Con Glypha, la pantografatura a doppio livello trasforma la porta in un bassorilievo contemporaneo. Un design scultoreo, esaltato dalla finitura laccata, che anima la parete con un vibrante gioco di luci e ombre, tra profondità materica e pulizia formale.

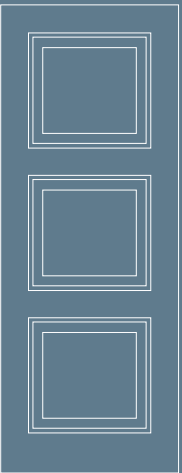

A three-dimensional glyph that evolves, elevates and defines the space. Glypha introduces double-level pantograph engraving, turning the door into a contemporary bas-relief. A sculptural design, enhanced by a lacquered finish, brings the wall to life with a dynamic interplay of light and shadow, where material depth meets formal purity.

ANTE A BATTENTE

SWING DOORS

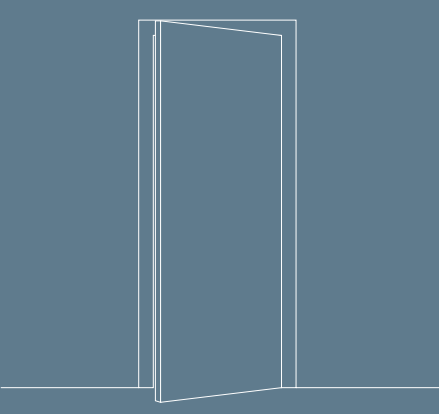

Un solo gesto, infinite interpretazioni. Il sistema a battente esplora ogni possibilità dell'apertura: dalla classicità della cerniera a vista al minimalismo assoluto delle soluzioni complanari, fino a innovative soluzioni tecniche rototranslanti o pieghevoli salvaspazio. Ogni apertura è una soluzione che interpreta con precisione esigenze tecniche e stile, per dare a ogni visione la risposta perfetta.

One gesture, endless interpretations. The swing system explores every possibility for the doorway, from the timelessness of visible hinges to the absolute minimalism of flush-to-wall solutions, including advanced pivot or space-saving folding technologies. Each doorway is a precise response to both technical and stylistic needs, offering the perfect match for any design vision.

APERTURE SCORREVOLI INTERNE

POCKET DOORS

Il gesto di far scomparire, l'intelligenza di creare spazio. La porta scorrevole a scomparsa è da sempre il cuore pulsante di Scrigno, l'intuizione da cui ha avuto inizio la sua storia e il campo in cui, ancora oggi, il sapere tecnico del brand raggiunge una nuova espressione. Questa expertise permette a Scrigno di spingere i limiti del design, dando vita a soluzioni per grandi dimensioni o per esigenze salvaspazio che sono, per concezione e performance, uniche sul mercato. Non semplici soluzioni, ma creazioni originali che solo uno storico saper-fare consente di realizzare.

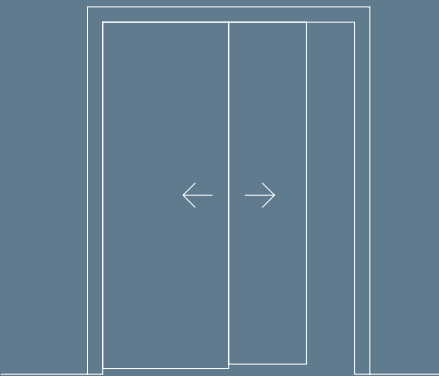

The art of disappearance, the intelligence of creating space. The pocket door has always been at the heart of Scrigno. It is the founding innovation from which its story began and the field in which the brand's technical expertise continues to find new expression.

Expertise allowing Scrigno to push design boundaries, delivering solutions for large-sized doorways or compact spaces that remain unmatched in concept and performance. Not merely solutions but original creations, made possible by a legacy of deep-rooted knowledge.

APERTURE SCORREVOLI ESTERNE

EXTERNAL SLIDING DOORS

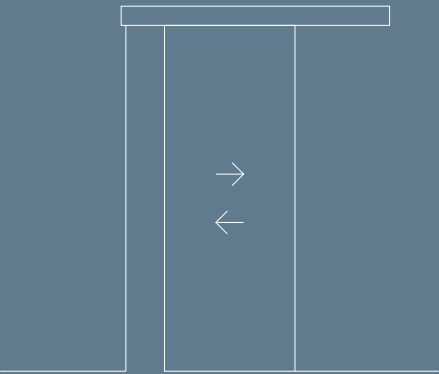

Il gesto Scrigno più iconico — l'arte di far scorrere una porta — diventa visibile agli occhi.
Con nuove soluzioni scorrevoli esterne, il pannello sfilava lungo la parete per diventare protagonista: una quinta architettonica in movimento, un vero e proprio elemento di design sartoriale. Le sue superfici preziose e le finiture ricercate diventano un segno visibile che valorizza l'ambiente con una presenza estetica raffinata e distintiva. Pensata per dividere e connettere ampi spazi, dalla zona giorno alla zona notte, è la prova che il design può evolvere e valorizzare ogni spazio.

Scrigno's most iconic gesture, where the art of sliding a door becomes a visible expression.
With the latest external sliding solutions, the panel glides along the wall to take centre stage: a moving architectural backdrop, a true piece of bespoke design. Its refined surfaces and elegant finishes become a visible statement, enhancing the space with distinctive and sophisticated visual appeal. Designed to separate and connect expansive interiors – from living areas to bedrooms – it proves that design can evolve and elevate any environment.
